Electrical Electronic Engineering

## EDUCATION

### İAOSB NUMTAL

14/07/2016 - 14/06/2020

This school is an engineering focused technical high school. So, I learned basics of electronic and programming early. Furthermore, I attended some robotic competitions like IZTECH ROBOLEAGUE and these competitions are some great experiences for me.

### OSTİM Technical University

4/08/2020 – Current

I'm currently studying in this university. My English level really improved because of foreign students. Also, I'm learning the things theoretically which I learned in high school practically.

## WORK EXPERIENCE

### ENKO Electronic- Intern

20/06/2019 – 20/07/2019

This work was required from my high school counts as intern program. While I was working here, I improved myself in programming by a lot, especially in Python.

## PROGRAMING SKILLS
